HOME:

Welcome to the market driven world. A world in which there is indeed only one filter through which every action is viewed and perceived – the market impact filter. In the world of fashion, change is order of the day. Market forces and economic considerations play a dominant role in influencing the success for the Apparel Manufacturers.

It is order of the day to maintain the commitments consistently made to the buyer. Quality, Cost, and Delivery is the driving force to survive in the present global business competitive milieu.

PROFILE

M/s. is manufacturer and exporter of knitted / woven garments. The brain behind is Mr..... and Mr.....

The organisation is manufacturing widest range of apparels for all seasons and categories. Our sole perception is to produce and cater constantly for the ever-changing needs and demands of the global market. Keeping in mind the need of the global market, considering the potential for Knitted & Woven Garments, our organisation is in the process of upgrading the technology which are heading for rapid transformation.

Our objective is to supply in large scale high quality and value added knitted and woven garments for all categories.

We are under fast growth track with a three-year strategic plan to become a specialized and potential exporter.

Empowerment and a system of distribute leadership would ensure growth without break down. We have devised a suitable method for easy access and control to improve the quality in all respects through steady and healthy growth to face the challenges in the near future and compete in the global Market with economies of production. In this regard, created Board of Advisors for an excellent way to enhance the credibility of our business group activities.

We are proud of taking greater responsibility in society building, which creates a sense of belonging among one's workforce. We are in the process of applying the requirements of ISO: 9001:2015, SA; 8000:2015, and SEDEX, in true spirit.

Our biggest strength lies in big pool of cheap and talented workforce. This would facilitate the organisation for cost effective operations to successfully fulfill the commitments to the global buyers.

Mr..... is handling the entire finance, marketing, sampling, and domestic and export sales of the garments/

Mr..... is looking after the entire production, supply chain, and administration including social compliance at factory, office, and supplier places.
